Sun	10-Dec	D	Cobaw Circuit	M	14	Macedon Ranges		NW	Fran
This is rescheduled from the August programme. This is a circuit walk with two steep uphill stretches and one steep downhill with a ridge walk between. The trails are quite rutted by 4 wheel drive and trail bike tracks in places. There is also evidence of severe storm damage in a small area. Despite this, it is a very attractive area of bush.

Come and help clear the partly overgrown Boobyalla Track on the north side of Mt Donna Buang. We have joined with the Melbourne Walking Club (MWC) and the Melbourne Womens Walking Club (MWWC) to open up this track again. It is a fun day. (N.B. it is necessary to obtain a Working with Children Check (WWCC) - can all be done on your mobile phone). It is also necessary to Register on ParkConnect (Parks Victoria's registration site) - see instructions here .									
Sun	14-Jan	D	Banyule Flats	EM	13	Metro North	7	N	Fran
This is an easy flat walk close to the city. We make a circuit of the lagoon which is usually very rich with birdlife. There are interesting relics of early farming, a couple of billabongs along the trail and a view of the confluence of the Yarra and Plenty Rivers. There is a fairly overgrown section of track close to the riverbank, with an easy return on the formed main Yarra Trail. This is quite close to the city but we will still start at the usual time so that we will finish relatively early in case it is a hot day.

Two thirds of the way around the park we leave for a short walk through the Alphington streets to Alphington Social where we will stop for a convivial sunset drink. Return to the park to complete the circuit and return to the cars. Bring a torch in case I have miscalculated the time it becomes dark.									
Thu	1-Feb	D	Candlebark Park	E	5	Metro East	10	E	Alfred
The walk starts at the Candlebark Carpark up the main track. Then follows the path to the right, which meanders through bushland up to the top of the hill. Then at the top we follow the track past a point and down to the main Yarra trail. We then make a loop over the Yarra and back to the Yarra Trail. The trail is a mountain bike trail and may be slippery if raining. Note: An alternative track will then be selected. The Candlebark Park is covered with young and some very old magnificent gum trees. The loop over the Yarra is providing a magnificent view of the Yarra.									
Sat	3-Feb	D	Macedon Ranges Circuit	MH	19	Macedon Ranges	65	N	Robyn

Wed	21-Feb	CLUB MEETING - See e-Bulletin for details							
Sun	25-Feb	D	Inverleigh	M	16	Moorabool	75	SW	Fran
This is rated Medium because of the distance, not the terrain. It is quite a flat track starting beside the Leigh River, with some lovely, large old gum trees. There is a short section of road walking to get to the Inverleigh Flora Reserve. There are lots of kangaroos and swamp wallabies in the reserve. 119 species of birds have been sighted there. The dominant tree species are manna gums and river red gums. The ecosystem is an endangered one - very little is left of the Victorian grassy plains and damp swamplands and most of what remains is in this reserve. After the walk we can have coffee at the Inverleigh hotel before returning home.
